

# ANDROMEDA

La superficie lavorata dei dischi in vetro si unisce ai metalli pregiati. Corpi illuminanti raffinati, senza tempo, che grazie al gioco di sfumature in gradazione fumè e bronzo, appaiono estremamente trasversali e contemporanei.

*The crafted surface of the glass discs blends with precious metals. They are refined, timeless light fixtures that, thanks to the interplay of shades in smoky and bronze gradients, appear extremely versatile and contemporary*
